TETON THERAPY

Pain Isn't Fun—But We Are!

DON SCOTT
COTA-L
RIVERTON CLINIC

STAFF PROFILE

Don began his medical career enlisting in the U.S. Army as a Combat Medic in 2005 and deploying for 15 months to Iraq. After his tour, Don re-classified into occupational therapy and became a Certified Occupational Therapy Assistant. He worked as a COTA in Landstuhl, Germany, and El Paso, Texas, before joining the Teton Therapy family. When he isn't making his patients and coworkers laugh at the office, he's likely heading out Wyoming-style: hunting, fishing, camping, and spending time with his wife and children.

Teton Therapy in the Community

Expressing Gratitude

We would like to use our November newsletter issue to express gratitude. We are thankful for the hard work our patients invest in their health and recovery. Also for our community healthcare providers, including doctors, nurses, and therapists. We are thankful for our hardworking, dedicated staff who give their hearts and souls to their work. We are thankful for our veterans and all those who dedicate their lives to serving others. As 2017 comes to a close, what are you thankful for?

SUCCESS STORY

“Physical therapy has been the best decision for me. I love Teton Therapy and everyone who works there. They’re so helpful and got me on the road to recovery. It used to be very painful to do certain things at the gym, and now I am able to do them again. I have even avoided surgery for my knee. Teton has really made a difference and I’m glad to continue my therapy here!”

ANDREA A.
(Cheyenne patient)
“I love Teton Therapy and everyone who works there.”

DID YOU KNOW?

Teton Therapy accepts insurance specific to veterans and active-duty service members.

At all four locations, we treat patients referred from VA hospitals. In addition, our Cheyenne clinic treats many patients who have TriCare, a health program specific to uniformed service members and their families. We understand navigating the "Solar Systems of Insurance" can be confusing and, often times, frustrating. Our dedicated, knowledgeable, in-house billing and insurance team are expert insurance ninjas.

The Teton Therapy staff (from billing to front desk to therapists) works together to serve and advocate for our patients throughout this process.

HOW DO YOU DO AUTUMN?

Ahhhh... Fall is upon us in Wyoming. People with tiny humans are slightly more sane now that school is back in session. Camo and bright orange vests and hats are back in style. Football season is in full swing. Some of us place bets on when the first snow will threaten us to put away our patio furniture and lawn mowers. Transitioning seasons isn't easy... and Teton Therapy is here to help you make the most out of your favorite Autumn activities! Call us for a free consultation.

TIP OF THE MONTH NO-DEDUCTIBLE SEASON RUSH!

It is almost the end of the year and that means... the NO-DEDUCTIBLE SEASON RUSH! Woo-hoo! Most insurance deductibles renew at the beginning of each calendar year. This means many of us have likely met our insurance deductibles! What does this mean for you? Once you have met your out-of-pocket expenses, many insurance plans will pay for a larger portion, if not all, of your medical expenses including—you guessed it physical and occupational therapy. Make a year-end gift to yourself by scheduling a visit to your PT or OT. Not sure what your deductible is or if it's been met? Call our billing staff, Jennifer, Kandis and Kaya, at 307-857-7074, and let them help you figure it out!

GIVE BACK CHALLENGE

This holiday season, we invite our patients and community members to give back to their communities... and tell us about it! Volunteer, donate to a charity, provide food or other service to someone in need. Dedication to each other is what makes our communities strong and uniquely Wyoming—and we want to hear about your special way of giving back.
